

3.2.6 Selection Votes

[Return to The Adoption Process in Detail](#)

When the Task Force voters believe that they sufficiently understand the relative merits of the available Submissions, the Task Force takes a vote to recommend a Submission to the Task Force's parent Technical Committee.

The Architecture Board reviews the recommended Submission for compliance with [Model Driven Architecture \(MDA\)](#) and for technical merit.

Once the Architecture Board endorses the recommended Submission, members of the relevant Technical Committee vote on the recommended Submission by email.

Successful completion of the Technical Committee vote moves the recommendation to OMG's Board of Directors (BoD).
