

5.1.2 PIMs and PSMs

[Return to Requirements](#)

[Section 6 Specific Requirements on Proposals](#) specifies whether [Platform Independent Models \(PIMs\)](#), [Platform Specific Models \(PSMs\)](#), or both are solicited.

If proposals specify a PIM and corresponding PSMs, then the rules defining the mappings between the PIM and PSMs SHALL either be referenced in a standard mapping or specified in the proposal.

To allow possible inconsistencies in a proposal to be resolved later, proposals SHALL identify whether the mapping technique or the resulting PSMs are normative.
