

## 5.2 Evaluation Criteria

### [Return to General Requirements on Proposals](#)

Although OMG adopts model-based specifications rather than their implementations, OMG takes the technical viability of implementations into account during the evaluation process.

The following criteria are used:

- [5.2.1 Performance](#)
- [5.2.2 Portability](#)
- [5.2.3 Securability](#)
- [5.2.4 Conformance: Inspectability and Testability](#)
- [5.2.5 Standardized Metadata](#)
