

[DTE6] Structured Information Processing Reference Architecture (SIP-RA)

[Go up to References](#)

Reference Identifier

DIDO-TE: [DTE6]

Citation

Dido Solutions, Inc. and Jackrabbit Consulting, Inc. *Structured Information Processing Reference Architecture (SIP-RA)*.

URI

☐ Add the canonical SIP-RA document URI.

Note

This reference provides the architectural foundation for the Structured Information Processing Reference Architecture (SIP-RA).

DIDO-TE derives architectural concepts, terminology, and requirements from SIP-RA where those concepts govern the design, implementation, operation, validation, or conformance of the DIDO Test Environment.

Requirements derived from this reference identify the applicable section, clause, figure, table, or other source location.

Examples include:

- [Conformance Model](#)
- [Conformance Criterion](#)
- Architectural conformance
- Conformance points
- Requirements traceability

Where DIDO-TE specializes or extends concepts defined by SIP-RA, the derived requirements and glossary entries identify both the original source and the resulting DIDO-TE specialization.
