

CON-009 Define Requirements Traceability

[Return to C.1 Conformance Requirements](#)

Statement

The [DIDO Test Environment \(DIDO-TE\)](#) specification SHALL define [Traceability](#) between each [Requirement](#) and the specification content that satisfies it.

Derived From

- [\[DTE6\]](#), Section 6.4.7, *RFP Traceability*

Rationale

Requirements Traceability provides explicit correspondence between normative Requirements and the specification content that satisfies those Requirements.

This correspondence supports review, conformance assessment, change analysis, and identification of Requirements that are not fully satisfied.

Applies To

- DIDO-TE specification

Verification

Verification confirms that:

1. each Requirement traces to the specification content that satisfies it

Referenced By

The following pages reference this requirement:

Plugin Backlinks: Nothing was found.

Delivery Phase

☐ Determine the delivery phase.

Implementation Status

☐ Determine implementation status.

Requirement Status

☐ The proposed derived requirement requires review and acceptance.

Issues

None.
