

C.11 Conformance Requirements

[Go to Annex C: Requirements](#)

This section identifies the requirements governing architectural conformance to this specification.

The requirements in this section derive from the applicable source documents identified in Annex B. Some requirements derive directly from those sources. Others decompose higher-level requirements into individually verifiable architectural obligations.

Conformance requirements define how an implementation, realization, architectural capability, or conformance profile demonstrates satisfaction of the applicable requirements of this specification without prescribing a particular product, technology, or implementation approach.

Each requirement has a stable requirement identifier and URI.

Requirements

Requirement ID	Requirement Title	Primary Source Basis
CON-001	Define Conformance Model	[DTE6] , Section 6.4.6
CON-002	Identify Requirements	CON-001
CON-003	Define Conformance Criteria	CON-001
CON-004	Define Conformance Points	CON-001
CON-005	Define Conformance Evidence	CON-001
CON-006	Define Traceability Relationships	CON-001
CON-007	Technology-Independent Conformance	[DTE6] , Section 6.4.6
CON-008	Define Mandatory and Optional Architectural Elements	[DTE6] , Section 6.4.6
CON-009	Define Requirements Traceability	[DTE6] , Section 6.4.7
