

Conformance Determination

[Go up to Terms and Definitions](#)

Discussion

A Conformance Determination records the outcome of a [Conformance Assessment](#).

The determination identifies whether the assessed subject satisfies the applicable [Requirements](#) and therefore achieves [Conformance](#).

A Conformance Determination is based on the applicable [Conformance Criteria](#), [Conformance Points](#), and supporting [Evidence](#) defined by the applicable [Conformance Model](#).

Definition

recorded outcome of a conformance assessment

Note

A Conformance Determination differs from a [Conformance Claim](#).

A Conformance Claim records what a party asserts.

A Conformance Determination records the outcome reached after evaluating the identified subject against the applicable Requirements and Conformance Criteria.

Example

Following a Conformance Assessment, an assessor records that a DIDO-TE implementation conforms to the applicable Requirements.
