

P1-REQ-13-5-006

[Return to Part 1 Requirements](#)

Statement

The [Audit and Provenance Plane](#) SHALL support auditability, provenance, lineage, reconstruction, and defensibility.

Source

Part 1, Section 13.5: Runtime Plane Requirements.

Rationale

The Audit and Provenance Plane provides the conceptual runtime plane for auditability, provenance, lineage, reconstruction, and defensibility. It separates evidentiary and reconstruction concerns from operational coordination, data exchange, health observation, and policy release.

This requirement supports later evidence, audit, and provenance mechanisms while preserving the conceptual purpose of the plane.

Applies To

This requirement applies to Audit and Provenance Plane definitions and references within the Conceptual Architecture.

It applies specifically to:

- Auditability
- Provenance
- Lineage
- Reconstruction
- Defensibility

Verification

Verification SHALL confirm that the Audit and Provenance Plane supports auditability, provenance, lineage, reconstruction, and defensibility.

Verification activities include review checks confirming that:

- Audit and Provenance Plane descriptions identify auditability
- Audit and Provenance Plane descriptions identify provenance
- Audit and Provenance Plane descriptions identify lineage
- Audit and Provenance Plane descriptions identify reconstruction
- Audit and Provenance Plane descriptions identify defensibility
