

P2-REQ-16-10-002

[Return to Requirements](#)

Statement

A Domain Logical Profile SHALL specialise the Logical Architecture / PIM for a specific financial Domain.

Source

Part 2, Section 16.10: Profile and Implementation Boundary Requirements.

Rationale

Domain Logical Profiles exist to refine the common Logical Architecture for a particular financial domain. Specialisation adds domain-specific behaviour and definitions while preserving the architectural meaning inherited from Part 2.

Applies To

This requirement applies to Domain Logical Profiles.

It applies specifically to:

- Domain Logical Profiles;
- Financial Domains; and
- Logical Architecture / PIM.

Verification

Verification SHALL confirm that Domain Logical Profiles specialise the Logical Architecture for their intended financial domain.

Verification activities should include review checks confirming that:

- domain-specific specialisations are identified;
- inherited logical meaning is preserved;
- domain additions remain consistent with Part 2; and
- specialisations are traceable.

Traceability

This requirement supports traceability between the Logical Architecture and its domain-specific specialisations.
