

P2-REQ-16-10-004

[Return to Requirements](#)

Statement

A Domain Logical Profile SHALL identify the Part 2 logical elements it specializes.

Source

Part 2, Section 16.10: Profile and Implementation Boundary Requirements.

Rationale

Explicit identification of specialized logical elements enables reviewers to distinguish new domain behavior from inherited architecture while preserving governance and traceability.

Applies To

This requirement applies to Domain Logical Profiles.

It applies specifically to:

- Specialized logical elements;
- Domain Logical Profiles; and
- Logical Architecture / PIM.

Verification

Verification SHALL confirm that specialized Part 2 logical elements are explicitly identified.

Verification activities should include review checks confirming that:

- specialized elements are documented;
- specialisations preserve inherited meaning;
- changes are justified; and
- traceability is maintained.

Traceability

This requirement supports traceability between specialized logical elements and their inherited Part 2 definitions.
