

P2-REQ-16-8-003

[Return to Requirements](#)

Statement

Logical Ownership of Definitions SHALL identify responsibility for defining, maintaining, approving, and reviewing logical definitions.

Source

Part 2, Section 16.8: Logical Governance Requirements.

Rationale

Clear ownership of logical definitions establishes accountability throughout the lifecycle of the Logical Architecture. Explicit ownership supports consistent maintenance, controlled evolution, governance reviews, and long-term stewardship of architectural definitions.

Applies To

This requirement applies to Logical Ownership of Definitions.

It applies specifically to:

- Logical definitions;
- Logical Governance Model;
- Definition owners; and
- Governance reviews.

Verification

Verification SHALL confirm that Logical Ownership of Definitions identifies responsibility for defining, maintaining, approving, and reviewing logical definitions.

Verification activities should include review checks confirming that:

- ownership responsibilities are explicitly identified;
- approval responsibilities are documented;
- review responsibilities are assigned; and
- ownership remains independent of implementation technologies.

Traceability

This requirement supports traceability between logical definitions, governance responsibilities, and architectural ownership.
