

10. Document Set Requirements

[Go to Top](#)

This section identifies the normative requirements established by Part 0 for the Financial Systems Archetype document set. The canonical requirement statements are maintained in [Annex C: Requirements, Part 0, Section 10](#).

Table 10-1: Part 0 document set requirements.

Requirement ID	Statement
P0-REQ-10-001	The document set SHALL preserve separation between conceptual, logical, implementation, deployment, and evidence concerns.
P0-REQ-10-002	The document set SHALL define financial-system concepts before defining logical models, implementation profiles, or deployment profiles.
P0-REQ-10-003	The document set SHALL preserve traceability from conceptual elements to logical elements, implementation artifacts, deployment artifacts, and evidence.
P0-REQ-10-004	The document set SHALL NOT allow implementation technologies to redefine conceptual architecture.
P0-REQ-10-005	The document set SHALL support the addition of financial domains, profiles, and deployment targets without requiring changes to the conceptual foundation.
P0-REQ-10-006	The document set SHALL distinguish SDIS/SIP-RA, the parent reference architecture discipline, from the Financial Systems Archetype , a financial-domain specialization.
