

10. Document Set Requirements

This section identifies the normative requirements established by Part 0 for the Financial Systems Archetype document set. The canonical requirement statements are maintained in [Annex C: Requirements, Part 0, Section 10](#).

Table 10-1: Part 0 document set requirements.

Requirement ID	Requirement Summary
%%P0-REQ-10-001%%	Preserve separation between conceptual, logical, implementation, deployment, and evidence concerns.
%%P0-REQ-10-002%%	Define financial-system concepts before defining logical models, implementation profiles, or deployment profiles.
%%P0-REQ-10-003%%	Preserve traceability from conceptual elements to logical elements, implementation artefacts, deployment artefacts, and evidence.
%%P0-REQ-10-004%%	Prevent implementation technologies from redefining conceptual architecture.
%%P0-REQ-10-005%%	Support additional financial domains, profiles, and deployment targets without changing the conceptual foundation.
%%P0-REQ-10-006%%	Distinguish SDIS/SIP-RA as the parent reference architecture discipline from the Financial Systems Archetype as a financial-domain specialisation.
