

Part 0: Document Set Overview and Reader's Guide

[Go to The FX Demo Root](#)

Part 0 provides the orientation, scope, structure, reading guidance, and governance rules for the Financial Systems Archetype document set.

It explains how the document set is organised, how the parts relate to one another, and how readers should move through the material. It establishes the layering discipline used throughout the FX Demo documentation and defines the rules used to preserve meaning, traceability, auditability, and evidence across the document set.

Notes for Editors

This document should be maintained as a set of linked wiki pages rather than a single monolithic page. Each major section should have its own stable URI so it can be referenced from other wiki pages, exported documents, presentations, AI-assisted tools, and semantic models.

Do not rename pages once they have been cited externally unless a redirect or move plan is in place.
