

6.6 Future Financial Classifications

[Go to Top](#)

The Financial Systems Archetype may support additional [Ecosystems](#) and [Domains](#) in later work.

Examples of possible future classifications include:

- [Finance Ecosphere](#) → Securities Ecosystem → Equity Trading Domain
- [Finance Ecosphere](#) → Banking Ecosystem → Commercial Lending Domain
- [Finance Ecosphere](#) → Reporting Ecosystem → Regulatory Reporting Domain
- [Finance Ecosphere](#) → [Monetary Ecosystem](#) → Commercial Paper Domain
- [Finance Ecosphere](#) → Oversight Ecosystem → Supervisory Monitoring Domain

These examples do not create formal classifications in this part. They illustrate how the model can extend beyond the initial [Foreign Exchange Domain](#).
