

16.10 Profile and Implementation Boundary Requirements

[Go To Logical Requirements](#)

This section identifies the normative requirements established for Domain Logical Profiles, Implementation Profiles, and the boundary between the Logical Architecture / PIM and later architectural artefacts. The canonical requirement statements are maintained in [Annex C: Requirements, Part 2, Section 16.10](#).

Table 16-9: Profile and implementation boundary requirements.

Requirement ID	Statement
P2-REQ-16-10-001	A Domain Logical Profile SHALL preserve the Logical Architecture / PIM defined in this part.
P2-REQ-16-10-002	A Domain Logical Profile SHALL specialize the Logical Architecture / PIM for a specific financial Domain.
P2-REQ-16-10-003	A Domain Logical Profile SHALL identify the Part 2 logical elements it inherits unchanged.
P2-REQ-16-10-004	A Domain Logical Profile SHALL identify the Part 2 logical elements it specializes.
P2-REQ-16-10-005	A Domain Logical Profile SHALL NOT introduce implementation technologies, deployment artifacts, runtime scripts, product choices, or Evidence -capture procedures.
P2-REQ-16-10-006
