

17.10 FX Logical Governance Requirements

[Go To FX Demo Logical Requirements](#)

This section identifies the normative requirements established for the FX Logical Governance Model within the FX Demo Logical Profile. The canonical requirement statements are maintained in [Annex D: Requirements, Part 3, Section 17.10](#).

Table 17-9: FX logical governance requirements.

Requirement ID	Statement
P3-REQ-17-10-001	The FX Demo Logical Profile SHALL define an FX Logical Governance Model.
P3-REQ-17-10-002	The FX Logical Governance Model SHALL define: • FX Logical Ownership of Definitions • FX Logical Versioning • FX Logical Compatibility • FX Logical Change Control • FX Logical Admission Rules • FX Logical Policy Constraints
P3-REQ-17-10-003	FX Logical Ownership of Definitions SHALL identify responsibility for defining, maintaining, approving, and reviewing FX logical definitions.
P3-REQ-17-10-004	FX Logical Versioning SHALL identify versions of FX logical definitions, relationships, constraints, and profile elements.
P3-REQ-17-10-005	FX Logical Compatibility SHALL identify whether FX logical elements work together without loss of meaning, structure, traceability, governance, or evidence expectations.
P3-REQ-17-10-006	FX Logical Change Control SHALL govern changes to FX logical definitions, relationships, responsibilities, constraints, lifecycle states, and interaction patterns.
P3-REQ-17-10-007	FX Logical Admission Rules SHALL define conditions governing participation of FX logical elements in the FX Demo Logical Profile.
P3-REQ-17-10-008	FX Logical Policy Constraints SHALL define platform-independent restrictions, conditions, obligations, or decision criteria governing FX logical interaction or FX information movement.
P3-REQ-17-10-009	The FX Logical Governance Model SHALL remain independent of repositories, workflow tools, requirements-management systems, policy engines, rules engines, access-control products, ticketing systems, approval systems, configuration services, runtime registries, and deployment mechanisms.
