

Participation and Next Steps

[◀ Previous](#) | [Top](#)

Who Should Participate?

- MARS members with middleware, distributed-systems, API, protocol, and information-exchange expertise
- Architecture Board members focused on architectural consistency and specification quality
- ADTF members with MDA, UML, SysML v2, metamodeling, and model-transformation experience
- Domain Task Forces with representative operational requirements and use cases
- Security specialists familiar with trust, Policy, jurisdictional, and cross-domain boundaries
- Ontology and semantics specialists who can relate governed meaning to the broader architecture
- Government, industry, academic, and implementation stakeholders
- Organizations interested in developing or joining a submission

What We Need Now

- Review the SIP-RA problem statement and proposed scope
- Identify missing use cases, perspectives, and requirements
- Confirm alignment with existing OMG specifications
- Identify overlaps, dependencies, and potential specification reuse
- Refine the mandatory and optional RFP requirements
- Recruit supporting organizations and potential submitters

Proposed Next Steps

- Complete the RFP body and Annex C requirements
- Conduct reviews within MARS and other interested OMG groups
- Resolve comments and establish submission deadlines
- Obtain the approvals required to issue the RFP
- Support the formation of one or more submission teams

Join the SIP-RA Effort

Help define a common architecture for governed, interoperable, and reproducible structured information processing.
